Education

Aditya College of Engineering

2020-2024

B.Tech in Electronics and communication Engineering **CGPA 8.1**

Surampalem, Andhra Pradesh

Technical Skills

Programming Languages : JavaScript, TypeScript, Python, C++, SQL

Frontend : React.js, Next.js, HTML, CSS, Tailwind CSS, Redux, Zustand, TanStack

Backend & Databases : Node.js, Express.js, REST APIs, WebSockets, PostgreSQL, MySQL, MongoDB

Developer Tools & AI : Git, GitHub, Docker, Postman, MCP, Prompt Engineering, AI-Assisted Development

Others : Data Structures & Algorithms, Competitive Programming, Microservices, OOPS, System Design Fundamentals

Experience

Software Development Engineer-1

DeeptaAI

Hyderabad Aug 2025 - Present

- Developed the Compass feature within the analytics platform, building interactive dashboards that help product teams identify user behaviors correlated with long-term retention.
- Implemented comprehensive visualization tools that reduced data interpretation times by approximately 40%; enabled users to make informed decisions faster based on actionable insights derived from complex datasets.
- Created the Third-Party Cohort Sync feature, building end-to-end user workflows for cohort exports, webhook integrations, recurring sync management, and sync monitoring within the analytics platform.
- Actively participated in code reviews, debugging, testing, and deployment activities throughout the development lifecycle.

Associate Software Development Engineer

Apxor

Hyderabad Apr 2025 - Aug 2025

- Resolved and debugged issues across multiple chatbot workflows in the Kore.ai Platform, improving conversation reliability, user experience, and overall bot performance.
- Developed and implemented secure public API encryption and decryption mechanisms to protect sensitive data exchanged between external systems and chatbot services, ensuring secure transmission, authentication integrity, and compliance with security best practices.
- Built scalable and responsive frontend features using React.js and TypeScript, delivering user-centric web application experiences.

Freelance

OutlierAI

Nov 2024 - Apr 2025

- Evaluated AI-generated responses, identifying inaccuracies and providing corrective feedback to improve model performance.
- Delivered coding solutions for benchmark tasks, supporting AI training, evaluation, and model improvement.
- Assessed AI-generated responses, documenting 100+ detailed recommendations to enhance model reasoning capabilities and improve accuracy by 15%.

Projects

LiveCanvas *TypeScript, Next.js, Express, WebSocket, PostgreSQL, Turborepo, Prisma*

[Project Link](#)

- Built a real-time collaborative whiteboard platform enabling multiple users to draw and interact on a shared canvas simultaneously with low-latency synchronization.
- Engineered backend systems for real-time collaborative rooms, user sessions, and drawing data persistence, cutting synchronization latency by 30% through optimized algorithms.
- Architected a monorepo integrating shared packages and unified contracts, streamlining client-server communication and boosting development velocity by 20%.

CodeLab

[Project Link](#)

- Engineered a full-stack coding platform from user input to result generation, implementing secure multi-language code execution and optimizing the automated evaluation system to process over 500 code submissions daily.
- Created high-performance APIs using Node.js coupled with next-generation functionality via Next.js enabling smooth communication channels which processed over 500 daily submissions without compromising efficiency or accuracy.
- Orchestrated the deployment of AI-driven code improvement suggestions, reducing average code debugging time for users by 30% within the platform.

Others

- **OwlCoder Excellence:** Recognized as a Top Performer in the OwlCoder program and consistently ranked among the Top 10 in multiple college-level coding competitions organized by *Technical Hub*.
- **Top Contributor – Outlier AI Platform:** Contributed to enhancing AI systems by ensuring instruction adherence and response quality.
